Best of Judge Thorpe, appointed United States Senator from Louisiana to replace Senator, by Gov. Sanders, to the Senate, was questioned regarding opening doors.

FOREIGN. German naval experts are building small Monitor type of sea fighter, driven by electric motors, which they say will never greater damage.

Second cholera victim dies in Germany; husband of first victim; goes research de-

BATTLE IS CERTAIN.

Conservation Meeting Today.

Delegates Gathering at St. Paul, Already Plumed for Fight.

Champions of State Control of Resources to Begin Fracas.

Federal Management Men to Bide Their Time; the Programme.

ASSOCIATED PRESS NIGHT REPORT.

S. T. PAUL (Minn.) Sept. 4.—Politics for and against "State's rights" in the matter of conservation of national resources held today among the delegates gathered here to attend the second National Conservation Congress, which, beginning tomorrow, will continue until Friday night.

There will be address dealing with everything from water power sites to conservation of bird life—plenty of them—but the real interest of the convention lies in the expected fight of the public land states for control of their own resources, rather than by the Federal government.

Predictions are that there will be a fight in the Resolutions Committee and again on the floor of the convention.

As to the relative strength of the two factions, nothing definite is obtainable tonight. The public land states will, it is said, be represented by full delegations. Less interest is said to have been shown in the older states, where public lands are not a local issue.

According to present plans, the friends of national control of public resources will proceed to a thought of their own, rather than a thought of State control.

They did not seem to start anything.

Mr. Keene reached Lexington yesterday evening about 5 o'clock over the C. & O. He walked to the Phoenix Hotel, and, not feeling well, decided to remain in town over night, instead of going out to Castleton.

About 4 o'clock this morning he became so ill that he had his valet call a physician, and send an automobile for Foxhall A. Daingerfield, his brother-in-law, who is manager of his farm.

Dr. John Scott, upon arriving at his bedside, advised that he go at once to a hospital, and he was taken to the hospital at 5 o'clock.

He had a high fever, a cold had congested his lungs and pneumonia was feared. Maj. Daingerfield and Dr. Scott remained with him until late in the morning, and the doctor called again at noon and again at 6 o'clock. Dr. Scott said tonight:

"Mr. Keene is doing nicely and I feel now that the congestion about his lungs may be broken up before it takes a firm hold. His temperature at noon was about normal, but a little higher tonight, which is natural."

DESOLATION.

"TWISTER" IN KANSAS KILLS AND INJURES.

Tornado and Cloudburst in South-eastern Part of State Cause Much Destruction of Property in Several Towns—Many Narrow Escapes.

BY DIRECT WIRE, TO THE TIMES.

PITTSBURGH (Kan.) Sept. 4.—[Exclusive Dispatch.] A tornado and cloudburst hit the mining section of Southeast Kansas last night about 9:30 o'clock, and did considerable damage to property between here and Joplin and Weir City and Scammon. No serious damage was done in Pittsburg, but at Weir City many dwellings houses were blown down and scattered over the country, and store fronts were blown in. One woman was killed and several injured there.

The damage to mining plants within the city is estimated at \$50,000. Several mills were completely demolished.

TORNADO KILLS AGED CONFEDERATE VETERAN.

BY DIRECT WIRE TO THE TIMES.

GALENA (Kan.) Sept. 4.—[Exclusive Dispatch.] John Dobson, an aged Confederate veteran, was instantly killed last night when a tall chimney where he resided exploded as night watchman was wrecked by a tornado. In the destruction of numerous buildings here many persons had narrow escapes from death. The damage to mining plants within the city is estimated at \$50,000. Several mills were completely demolished by the collapse of tailing elevators and others were split in two by the wind.

Heavy damage was also sustained by farms and gardens in the surrounding of ginned camps and farm buildings. Damage to electric light wires and gas lines left the city in darkness when the storm was most severe. During the storm there was a continual electrical display while rain fell like a cloud burst. Hallstones broke plate glass windows.

CHOLERA DEATH IN BERLIN.

BERLIN, Sept. 4.—The second death from cholera occurred at Spandau to the woman whose husband the disease last week. All of the persons who are being held as cholera suspects are doing well and in a majority of the cases bacteriological searches have proven that cholera does not exist.

The Carl Junction High School was partially wrecked, and that city's streets are impassable from the debris. At Galena, Kan., John Dobson, an aged Confederate veteran, was injured last night, when the milling plant, where he was employed as night

watchman, was wrecked by a tornado. In the destruction of numerous buildings there were many persons who had narrow escapes from death.

The damage to mining plants within the city is estimated at \$50,000. Several mills were completely demolished.

ITALIAN COURT RULES CHURCH MAY DISPOSE OF PROPERTY WITHOUT GOVERNMENTAL CONSENT.

ROME, Sept. 4.—The Supreme Court has rendered a judgment affirming the right of the Holy See to sell property without authorization from the government.

The decision has created a sensation in art circles. It is feared that art treasures are to be sold and it is proposed to introduce a bill in Parliament prohibiting the Holy See from disposing of art treasures.

The Carl Junction High School was partially wrecked, and that city's

TWAS A BUSY DAY OF REST.
Roosevelt Declares Against Any Sunday Talks.

But He Capitulates at the Very First Stop.

Ends Day With a Record of Speeches for Trip.

ASSOCIATED PRESS NIGHT REPORT.

FARGO (N. D.) Sept. 4.—After an all-day ride through parts South Dakota, Minnesota and North Dakota, President Roosevelt reached Fargo early this evening. The people of Fargo were waiting at the station for him, and gave him a welcome, in view of the fact that it was Sunday. He was after midnight when Col. Roosevelt got to bed last night.

"Like Weller's Thanksgiving turkey, am old and tough," he said, just before he retired, "but there are limits." Those traveling with him on his eastern trip have been astonished at his endurance. He has attended breakfast, lunch, dinner and supper until late at night, and he has made no speech since he left New York that he cannot estimate a number.

His last night he admitted that he was tired. He instructed his secretary and telegram to towns through which he was to pass today, saying that it was Sunday, he would make speeches wherever from the train.

The special train scouted across the western edge of South Dakota and into Minnesota for the first day of the trip. Col. Roosevelt had been resting in an easy chair and reading a book. Then the engineer slowed down.

"Toddy! Toddy! Come out!" he shouted. Let's go now."

"There was a shout outside.

The colonel's telegram was out, but the people paid no attention.

"Toddy! Toddy! Come out!" the shout continued. The shout grew louder. He laid down his book. Some of the people saw him through the window, and cheered. He was and there was another cheer.

He ran to the door and thrust his head through.

The colonel and boys were climbing upon the railing, trying to get to him.

He had shaken hands with every one in reach, the colonel stepped off.

CAPITULATION.

"Speech!" the crowd cried.

Mr. Roosevelt took another step as though about to go back into the car, the cry of "Speech! Speech!"

He stood and he capitulated.

Something happened at every station at which the train stopped and Roosevelt surrendered unconditionally to the rest of the day, making speeches at every station which the train stopped.

The people came out with bands and dressed in their Sunday clothes and swarmed on the tracks behind the train. They stayed there until the train started and followed it down the track until the cars got under head.

The colonel made more speeches than an almost any other day.

The crowd at Wilmar, Minn., was the largest of the day. As it was Sunday, Mr. Roosevelt had thought none from him would be more fitting.

He told them the Americans had three qualities, in order to become a nation. First, he manhood, second, courage and third, honesty, and courage are not enough, he said. "In addition you have the saving grace of common sense. If a man is a natural born fool, he can do with him."

Brackenridge, Minn., Senators Chamberlain and Purcell of North Dakota, got on the train. At Wahpeton, first station across the line in North Dakota, a reception committee appeared. Mr. Roosevelt, the Evening of Boston, and took the colonel in

the train reached Fargo, the last crowd of all was on hand. The colonel, who had been trying to persuade the people to go, saying that Col. Roosevelt was not, but they stayed until the colonel got him loudly. Then they followed him home, where he had retired to his room, saying he was going to have the evening to rest, and that he would make no appearance until tomorrow.

BIG CROWD AT FARGO.

Thousands of persons have come to see tomorrow's Labor Day celebration. Fargo expects one of the largest crowds in its history.

Roosevelt will lay the cornerstone for the Carnegie Library at Fargo.

This afternoon there will be a pageant through the city and to Island Park, where Col. Roosevelt is to make a speech of the day.

He will leave for St. Paul in the evening, and his speech will be given at the Col. Roosevelt's visit Tuesday.

He will leave for St. Paul in the evening, and his speech will be given at the Col. Roosevelt's visit Tuesday.

Representative James E. Graham of Illinois, one of the Democratic members, who arrived today, said that if the committee arrives at a decision during the week he was in favor of having it made public at once and not waiting longer.

Representative George H. Cannon of Tennessee, who was in the city, and the colonel reached his room.

Sylvane and Ferris of the

Vice-President extended his hand.

The Vice-President extended his hand.

The hands clasped and clung.

TENSION.

INVESTIGATING COMMITTEE PLANS TO MEET TOMORROW.

(ASSOCIATED PRESS NIGHT REPORT.)

MINNEAPOLIS (Minn.) Sept. 4.—Members of the Congressional committee that has been investigating the Ballinger-Pinchot controversy, the Interior Department and the Bureau of Forestry, arrived today and will hold a meeting in this city tomorrow. There will, however, be no discussion of the evidence taken in Washington and other matters in dispute until Tuesday.

This is in order to allow Senator Nelson of Minnesota, chairman of the joint committee, who is scheduled for an address at the Conservation Congress tomorrow, to attend that gathering.

Senator Nelson and his colleagues are also to be present on the occasion of Col. Roosevelt's visit Tues-

day.

MONDAY MORNING.

Los Angeles Daily Times

SEPTEMBER 5, 1910.

THE GREAT PACIFIC SLOPE

FOR U. S. SENATOR.

MOST COUNTIES FOR SPALDING.

Carried Twenty-six to Only Sixteen for Works.

Senatorial Advisory Vote in the Primary.

Partisans of San Diego Man Think He Has Won.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN DIEGO, Sept. 4.—W. D. Page, secretary of the San Diego Business Men's Senatorial Committee, some days ago wrote to the clerks of the fifty-eight California counties, inclosing blanks and asking the official result of the primary vote on United States Senator as certified. Up to this even- ing returns have been received from forty-eight of the counties.

Of these forty-eight counties, returns show Spalding carried 26; Works 15 and Mervera 6. Out of the total State-wide vote of these forty-eight counties, Works received 53,541 votes; Spalding 46,772, and Mervera 44,785, making a total of 144,098.

The popular vote does not count in the primary law.

Spalding's greatest strength was shown in San Francisco, San Diego, Sonoma and Riverside counties. Works' greatest strength was shown in Los Angeles and Fresno counties, where he received 19,502 votes.

Mervera's plurality in the six counties carried by him was small.

The vote for Senator by legislative districts cannot yet be accurately ascertained, but the Spalding partisans in this city claim that the results of the forty-eight counties indicate that he has the greatest number of districts and consequently the advisory vote of the State.

UNIVERSITY IS CROWDED.

San Jose Institution Adds to Faculty to Accommodate Great Number of Students.

(BY DIRECT WIRE TO THE TIMES.)

SAN JOSE (Cal.), Sept. 4.—[Exclusive Dispatch.] To meet the demands of the large number of students this year registered at the University of the Pacific, that institution has had to enlarge its faculty by the addition of several instructors.

Among these the school has obtained the services of Thomas Vincent Cator, Jr., the well-known composer and pianoforte instructor of this city. Cator is a graduate of the University of the Pacific, and for two years was a student in Germany under Leeschitzky, the famous teacher of Paderborn, who will teach piano, and his addition to the music faculty completes the teaching force and places the local conservatory in the first rank among the musical schools of the Coast.

Tony Cator is well known in local club and social circles, and is a son of T. V. Cator of San Francisco, president of the Board of Election Commissioners. Besides his musical work, he has done considerable literary work.

STATISTICS OF THE FIRES.

Great Damages in Washington—Many Men Employed at Heavy Expense. Acres Burned Over.

(ASSOCIATED PRESS NIGHT REPORT.)

SEATTLE, Sept. 4.—Approximately 200,000 acres of timbered and cut-over land in Western Washington have been burned over by the destructive forest fires that have swept over various sections west of the Cascades this season.

Cost to \$200,000 has been spent so far in fighting the fires, and the attempt to save standing timber. These figures were announced today by D. F. Simons, Jr., chief fire warden of the Washington Forest Fire Association.

The Washington Forest Fire Association has employed 1,200 extra men in addition to the 300 regular rangers and patrollers.

Of the 200,000 acres burned over, Mr. Simons estimates that 20,000 were in standing timber. At least 75 per cent. of the burned green timber will be saved by logging.

REPORT BANNER FRUIT YEAR.

Grass Valley Growers Are Enjoying Profits of Prosperous Season. East Pays Top Prices.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Sept. 4.—[Exclusive Dispatch.] Reports of fruit shipments from the counties in this section indicate an unusually prosperous sea-

son. Grass Valley has shipped to eastern points 14,000 boxes of Bartlett pears, and they brought the best prices that

WILL POST GUARANTEE.

HILL MAKES THE STATE OF WASHINGTON LIBERAL OFFER.

Son-in-Law of James J. Proposes to Build Macadamized State Highway, Over Thousand Miles in Length, in Four Years on Money "Usually Wasted on Dirt Roads in That Time"—Details.

(BY DIRECT WIRE TO THE TIMES.)

TACOMA (Wash.), Sept. 4.—[Exclusive Dispatch.] Samuel Hill, father of the good road movement in this State, national vice-president of the highway organization and permanent honorary president of the Washington Good Roads Association, has offered to deposit \$1,000,000 guaranteed that he will build a State highway, macadamized to a width of sixteen feet, properly drained and containing a minimum grade of 5 per cent., between Bellingham and Vancouver, via Seattle and Tacoma. Vancouver and Walla Walla, thence to Spokane and then by way of Davenport, Waterville and Wenatchee and Tacoma to Seattle, within four years, if the State and the counties affected will give him the use of the roads, and the cost of their maintenance, and assume the cost of the operation of the road crews, building materials, cement, dynamite, tools and the proper proportion of County road money—the money that

SEE BRIGHT METEORITE.

Brilliant Astral Body Excites Curiosity in Willamette Valley in Oregon.

(BY DIRECT WIRE TO THE TIMES.)

PORLAND, Sept. 4.—[Exclusive Dispatch.] A brilliant meteorite was seen by scores of persons in Portland and various points in the Willamette Valley shortly after noon today. It swept across the heavens from southeast to northwest and disappeared apparently in the vicinity of McMinnville. That the meteorite was unusually large is evidenced by the fact that it was seen simultaneously from cities seventy-five miles apart. It was extremely brilliant. N. W. Clark, who saw it with his wife at the Craig ranch near Salem, describes it as appearing in transit to be about the size of a peck measure. Albany, Hillsboro and Oregon City also report that persons saw it in those places.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Sept. 4.—[Exclusive Dispatch.] Attendance at the State Fair was much larger today than on Saturday, and tomorrow's crowd promises to break the records of former years, as it will be Labor Day and a holiday.

In spite of the heat, the shaded grand stand seats were comfortably cool and the crowd watched the daring riding of the Cheyenne bronco busters for two hours this afternoon, with sustained interest.

The agricultural exhibits in the main building are now all in place and challenge the admiration of visitors. With the wonderful variety of the products of California soil illustrated by displays of cotton, rice, oranges, wine, raisins, apples and wheat, this display shows what can be done in making a comprehensive exhibition of the resources of the State and letting the world know what California can raise.

There is in fact an anticipation of the larger exposition in this State Fair, which will reach its climax on Tuesday when the boats and trains bring the delegations from San Francisco for Exposition day.

LAWMAKERS COMING.

The Legislators, who will arrive on the same day of the special session of the Legislature, will pass into the Capitol grounds under a broad canvas on which is painted the words "The Solid West for the World's Exposition in 1915."

Among the features promised for the rest of the week are Dick Stanley's attempt to make "Steamboat" quit, and an act in which a cowboy proposes to jump from a running horse to the back of a wild steer and to throw the steer.

Charles K. Hamilton will make his first airplane flight tomorrow morning and the new feature which he will introduce is a fast motor boat night flight in which he will chase and overtake an automobile keeping his searchlight on the speeding machine in the track below him.

NEW DISEASE KILLS THREE.

Two Oregon Women and Young Child Succumb to Infantile Paralysis. Doctors Baffled.

(BY DIRECT WIRE TO THE TIMES.)

STOCKTON, Sept. 4.—Some thirty editors and political writers of the Democratic papers of California gathered in this city tonight to discuss party policies as they will be considered tomorrow by the State convention.

Under the direct primary law the convention will only adopt a platform to which the nominees selected at the state nominating convention will subscribe.

The platform will be adopted by the entire delegation until Saturday.

CHARLES K. HAMILTON will make his first airplane flight tomorrow morning and the new feature which he will introduce is a fast motor boat night flight in which he will chase and overtake an automobile keeping his searchlight on the speeding machine in the track below him.

AMONG THE FEATURES PROMISED FOR THE REST OF THE WEEK ARE DICK STANLEY'S ATTEMPT TO MAKE "STEAMBOAT" QUIT, AND AN ACT IN WHICH A COWBOY PROPOSES TO JUMP FROM A RUNNING HORSE TO THE BACK OF A WILD STEER AND TO THROW THE STEER.

CHARLES K. HAMILTON WILL MAKE HIS FIRST AIRPLANE FLIGHT TOMORROW MORNING AND THE NEW FEATURE WHICH HE WILL INTRODUCE IS A FAST MOTOR BOAT NIGHT FLIGHT IN WHICH HE WILL CHASE AND OVERTAKE AN AUTOMOBILE KEEPING HIS SEARCHLIGHT ON THE SPEEDING MACHINE IN THE TRACK BELOW HIM.

NEW DISEASE KILLS THREE.

Two Oregon Women and Young Child Succumb to Infantile Paralysis. Doctors Baffled.

(BY DIRECT WIRE TO THE TIMES.)

PORTLAND, Sept. 4.—[Exclusive Dispatch.] Two deaths in Portland and one in Oregon City from infantile paralysis occurred today. This brings the total deaths from the disease at Portland and vicinity to six. About twenty cases have been reported within three weeks. Charlotte Calvert, 5-year-old daughter of R. G. Calvert, the first victim today, had been ill only three days. The case was not considered serious until Saturday.

CHARLES K. HAMILTON WILL MAKE HIS FIRST AIRPLANE FLIGHT TOMORROW MORNING AND THE NEW FEATURE WHICH HE WILL INTRODUCE IS A FAST MOTOR BOAT NIGHT FLIGHT IN WHICH HE WILL CHASE AND OVERTAKE AN AUTOMOBILE KEEPING HIS SEARCHLIGHT ON THE SPEEDING MACHINE IN THE TRACK BELOW HIM.

WASHINGTON.
RUSSIA SEEKS
NEW U.S. PACT.

Replica of Jap Treaty Will Suit the Czar.

Scars Far East Events Have Boomeranged Bear.

Baron Rosen Is Ordered to Tie Door Ajar.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON. Sept. 4.—[Exclusive Dispatch.] Baron Rosen, the Russian ambassador, has been advised to take up with the Department of State every step necessary for a treaty between Russia and the United States. The invention so much desired by Russia to be a twin document with the one now existing with Japan, now in preparation.

"The new treaty will be commercial and semi-political. Imports from Russia are on a ratio of 10 per cent compared with the exports from the United States.

"These amounted to less than \$30,000,000 a year ago. The Russian government, according to advices received to date, believes that the events in the Far East during the last five years in some manner reacted against Russia. This is the view taken by M. Asaki, the Foreign Minister.

As convinced that the treaty will do him with the difficulty, he is desirous at present as soon as convenient to sign it.

The subject-matter of the treaty will be the same provisions fully possible three articles will cover commerce and of diplomatic interests and a article that will permit the United States to share every benefit through its alliance with the other powers or MacGregor arrangement embodied for the first time in history in a document of his sort.

POINT RAISED.
EAT IN SENATE IN JEOPARDY.

DIMENTMENT OF THORNTON MAY BE QUESTIONED.

Was Made by Gov. Sanders of Indiana to Fill Vacancy Caused Death of Senator McEnery and His State Legislature Was in Adjourn Session.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON. Sept. 4.—Gov. Sanborn, as Senator from Louisiana, will be questioned when Congress convenes in December.

An appointment was made to fill the seat left by the death of Mr. McEnery, last June.

Louisiana Legislature was in session at the time and Gov. Sanders was selected to succeed the deceased senator. Desiring, however, to devote energies to the proposed Panama Canal exposition in New Orleans, the governor has resigned the office of the senator, and, as Governor, has appointed Mr. Thornton Senator.

It was contended the preceding violence had run late down the Quay what was that a Governor had power to make a temporary appointment as Senator to fill a vacancy, may have occurred when the legislature of the State was in session.

I was resigning while the Pennsylvania Legislature was in session. Mr. McEnery, after reflection, failing in his efforts given the appointment by first governor.

A majority of one, in a vote of congress refused to award the appointment.

WEEKLY CENSUS NEWS.

Associated Press Reports for the Press.

First One Is Out.

[ASSOCIATED PRESS NIGHT REPORT.]

SHIRKING. Sept. 4.—Henceforth the census bureau will publish the benefit of the press a weekly way giving the population of each state as shown by the recent census.

Sixty-five houses, more than 1,900 houses, first of these bulletins was issued yesterday, excluding Philadelphia and Rochester, shows results of the decade 1900-1910 than the preceding decade, 1890-1900.

The bulletin says: "The Canadian authorities were ignoring regulations when they allowed troops to escort incoming Catholic dignitaries who are attending the Eucharistic Congress at Montreal, Cardinal Vannutelli the Pope's legate at the gathering, who arrived yesterday, was given an escort of police."

The military authorities here drew the attention of Col. Roy to the regulations which forbid Canadian militia participating in any welcome that takes place in a diplomatic or political way.

The troops have been given certain dignitaries of the church and consequently there has been some strong criticism. Hereafter, there will be no military escort, but a squad of police will form a guard of honor.

ARMY OFFICERS ABSENT.

TELE Cited by Brigadier-General as having serious handicap to work of Army.

[ASSOCIATED PRESS NIGHT REPORT.]

SHIRKING. Sept. 4.—The absence of the officers of the department at the time of inspection today, was said by Brig.-Gen. Frederick Smith, commandant of the Department of the Army, as being a most serious blow to his work. Particularly this true of the absent captains, said, because of the demoralization of the corps, and the discipline of the men. Among other recommendations, he suggested that the administration of the post at Ft. Leavenworth, Kan., the army service schools in the United States military prison at Alcatraz, all should be under one head.

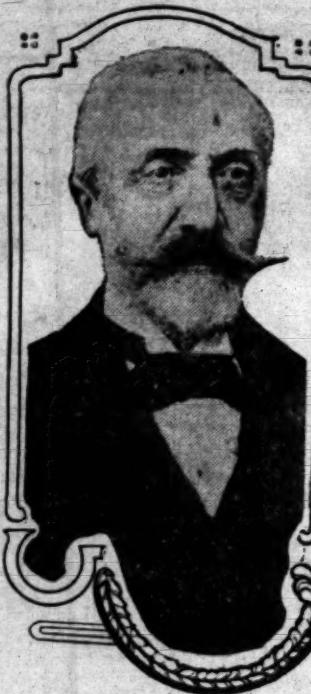

He removed, in preparing re-

quest a nomination for West Point.

[ASSOCIATED PRESS NIGHT REPORT.]

SHIRKING. Sept. 4.—By formal request of the War Department any but as to the discriminations against the disabled candidates for the army.

When Miss Ruth Hanna, now Mrs. McCormick of Chicago, daughter of the late Senator Hanna, first rode

"LIZZIE" CLEARS A SALOON.
Men and Things Fly Fast When Colt Gets Busy With Her Business End.

[BY DIRECT WIRE TO THE TIMES.]
NEW YORK, Sept. 4.—[Exclusive Dispatch.] The East side, in the neighborhood of Pitt and Delancey streets, has a new plaything. It is Lizzie, an 11-days-old colt.

Yesterday night Lester Stein, the grand piano player, Lizzie, brought the small prize out to the street for the evening air. After walking up and down the street a few times, Stein stepped into a saloon for a glass of beer.

Lizzie followed and also had a glass of beer, and was just about to have another when a pinocchio player leaned back in his chair, jarred Lizzie and upset her beer.

Lizzie followed and also had a glass of beer, and was just about to have another when a pinocchio player leaned back in his chair, jarred Lizzie and upset her beer.

TRAFFIC AGENTS ELECT.

MEETING AT SAN JOSE.

ASSOCIATED PRESS NIGHT REPORT.

SAN JOSE, Sept. 4.—The California Association of Traffic Agents held their annual meeting and election of officers at the Sea Beach Hotel in Santa Cruz last night. Officers were elected as follows: George G. Frazer, Chicago Great Western, president; Matt Lindsay, Madson Navigation Company, vice president; Harry E. James, Delaware, Lackawanna & Western, secretary-treasurer.

CARD SHARPS FLEECE WOMAN.

Little Game Begun on Lake Boat and

Continued at Detroit Hotel Is

Expensive.

BY DIRECT WIRE TO THE TIMES.

DETROIT, Sept. 4.—(Exclusive Dispatch.) A game of draw poker at the Pontchartrain Hotel, disastrous for Mrs. M. Hunt of Buffalo, started on the buffalo boat last Sunday night. Yesterday Mrs. Hunt awoke out warrous of two card sharps.

During the staterooms were all sold.

Mrs. Hunt, who is wealthy and had considerable money and jewelry with her, sat up all night with a friend.

The girl played poker for money to while away the time. Two men scraped acquaintance and joined the game, for matches.

When Detroit was reached Mrs. Hunt took rooms at the Pontchartrain so did her new friends. They met again and again, and finally, it was learned, only Mrs. Hunt was still informed that a third man with lots of money who thought he could play poker, but couldn't wanted to join them, and it was suggested that they play for money.

Mrs. Hunt, who had been invited by the stranger, was invited to join. The customary dealing process was indulged in, and the trio got all Mrs. Hunt's ready cash and a diamond ring worth \$750 before one of the conspirators went out to get some more money.

The police, from her description of the three men, recognize them as well-known card sharps.

CHOLERA DEATHS IN ITALY.

PARIS, Sept. 4.—(Exclusive Dispatch.) Deaths from cholera and twenty new cases of the disease were reported from the infected district in Southeastern Italy in the last twenty-four hours.

RAILROAD RECORD.

DADS ENJOY
BUSIEST YEAR.

Greatest in Volume of Business Ever Known.

Interstate Commerce Commission Has Figures.

May Bulletin Published; One Month Lacking.

BY DIRECT WIRE TO THE TIMES.

WASHINGTON, Sept. 4.—(Exclusive Dispatch.) With the announcement yesterday by the Interstate Commerce Commission of the May receipts of the railroads of the country it became known that the last fiscal year was the greatest, so far as the volume of railroad business was concerned, in the industrial history of the country. The total operating revenue for the first eleven months of the year ending June 30 was more than \$100,000,000 greater than the operating revenue for the corresponding eleven months of the year ending June 30, 1909. It also was demonstrated by the commission's report that the last year was far ahead of 1907, referred to in "Industrial Life" as the banner year.

The May bulletin on operating revenues and expenses of all the steam roads in the country makes it possible to show what the railroads have done during all but one month of the year just closed. Operating revenues for the eleven months were \$2,542,210,711. Operating expenses were \$1,680,500, leaving a balance of \$861,302,866, with which to pay taxes, dividends and interest on funded debt. At the close of the first eleven months of the fiscal year ending June 30, 1909, the railroads had net operating revenues of \$79,799,214, with which to pay taxes, dividends and interest on funded debts.

The exact increase for the first eleven months of the fiscal year ended June 30, 1910, over the first eleven months of the year ended June 30, 1909 is \$10,562,331. In other words, the net profits from the operation of the lines is bigger by more than \$10,000,000.

For a basis of comparison with previous years by full years, the June 30, 1910 revenue and expenses have been estimated as one-eleventh of the total for the first eleven months and added to the above totals. This makes the figure for the complete fiscal year ended June 30, 1910, as follows: Operating revenues, \$2,773,320,770. Operating expenses, \$1,832,717,948. Net operating revenues, \$939,602,822.

The actual figures for the complete fiscal year ended June 30, 1910, compiled from the monthly Interstate Commerce Commission bulletins, are as follows: Operating revenues, \$2,443,312,322. Operating expenses, \$1,615,297,232. Net operating revenues, \$827,514,989. This shows that for the fiscal year 1910 the net operating revenues of the railroads of the United States were \$111,727,523 greater than for the fiscal year 1909.

TO BUILD ELECTRIC LINE.

Construction on Woodland-Sacramento

Route Will Start at Once, Presi-

dent Says.

BY DIRECT WIRE TO THE TIMES.

WOODLAND (Cal.), Sept. 4.—(Exclusive Dispatch.) After months of expectancy on the part of residents of the Yolo and Sacramento counties, the long-awaited announcement of the final decision to build an electric line between Sacramento and this city is made by President T. C. Gregory of the Valencia and Northern.

There is now no direct connection between Woodland and the capital.

The new road will use the bridge of the Northern Electric over the Sacramento River. The Yolo County Auto Club has made an arrangement with the Vallejo and Northern for a public road along the electric road's right of way.

It is announced that work will begin at once. The contract for the bridge across the Sacramento was let last week.

This will be the first electric line to unite the west and east side of the Sacramento Valley. Another cross valley line higher up with Colusa to its objective on this side is planned.

TRAFFIC AGENTS ELECT.

MEETING AT SAN JOSE.

ASSOCIATED PRESS NIGHT REPORT.

SAN JOSE, Sept. 4.—The California Association of Traffic Agents held their annual meeting and election of officers at the Sea Beach Hotel in Santa Cruz last night. Officers were elected as follows: George G. Frazer, Chicago Great Western, president; Matt Lindsay, Madson Navigation Company, vice president; Harry E. James, Delaware, Lackawanna & Western, secretary-treasurer.

CARD SHARPS FLEECE WOMAN.

Little Game Begun on Lake Boat and

Continued at Detroit Hotel Is

Expensive.

BY DIRECT WIRE TO THE TIMES.

DETROIT, Sept. 4.—(Exclusive Dispatch.) A game of draw poker at the Pontchartrain Hotel, disastrous for Mrs. M. Hunt of Buffalo, started on the buffalo boat last Sunday night. Yesterday Mrs. Hunt awoke out warrous of two card sharps.

During the staterooms were all sold.

Mrs. Hunt, who is wealthy and had considerable money and jewelry with her, sat up all night with a friend.

The girl played poker for money to while away the time. Two men scraped acquaintance and joined the game, for matches.

When Detroit was reached Mrs. Hunt took rooms at the Pontchartrain so did her new friends. They met again and again, and finally, it was learned, only Mrs. Hunt was still informed that a third man with lots of money who thought he could play poker, but couldn't wanted to join them, and it was suggested that they play for money.

Mrs. Hunt, who had been invited by the stranger, was invited to join. The customary dealing process was indulged in, and the trio got all Mrs. Hunt's ready cash and a diamond ring worth \$750 before one of the conspirators went out to get some more money.

The police, from her description of the three men, recognize them as well-known card sharps.

CHOLERA DEATHS IN ITALY.

PARIS, Sept. 4.—(Exclusive Dispatch.) Deaths from cholera and twenty new cases of the disease were reported from the infected district in Southeastern Italy in the last twenty-four hours.

LIFE'S SEAMY SIDE.

HAVE NAME OF
ONE SUSPECT.

Detectives Have Torn Envelope; Find Money.

Suspect Italian Employees of
Brick Company.

Arrests for Dual New York
Killing Expected.

[ASSOCIATED PRESS NIGHT REPORT.]

HUDSON (N. Y.) Sept. 4.—[Exclusive Dispatch.] A torn envelope and letter will probably prove the undoing of the men who shot down Paymaster Denton Fowler of the Atlas Brick Company and George Ragsdale, his driver, as they were going to the brickyard Saturday with \$500 in envelopes to pay off the hands.

The torn bits of a letter and envelope were found today in the bushes, where the men hid when shot down young Fowler and the negro.

They were water-soaked and now are being dried and will be put together by an expert, but the address on the envelope has already been deciphered.

The police refuse to make the name public, but state that the letter is in Italian, and they know the whereabouts of the men who sent it.

The satchel containing the \$500 was also discovered today by James Leonard, one of the brickyard superintendents. This was hidden under some leaves within a short distance where the men were working, not far from the road, but toward the brickyard, indicating that whoever carried the valise ran toward the yard after the shots were fired. The money was intact and the bag had not been opened.

Two Pinkerton men from New York are assisting the local force, and it is now believed that the murderers were Italians working on the brick yard.

It would have been possible for them to have run away after the shots were fired. Two of these were bashed and, as two caps were found near the scene of the murder, the police believe that the party divided, some coming to Hudson and some going back to the brick yard.

Young Fowler, in his uniform, made straight to the door of the brick yard, where there were six or seven in the attacking party. The police are confident that they will capture the entire party, and it would not be surprising if some arrests were made within twenty-four hours.

Three men were seen running through the grounds of the Firestone Rubber Company, and a shot was fired. Two of these were bashed and, as two caps were found near the scene of the murder, the police believe that the party divided, some coming to Hudson and some going back to the brick yard.

Young Fowler, in his uniform, made straight to the door of the brick yard, where there were six or seven in the attacking party. The police are confident that they will capture the entire party, and it would not be surprising if some arrests were made within twenty-four hours.

of those who entrust to us their money or the conduct of their affairs.

The undivided confidence of our depositors, and the public in general, has made possible the rapid growth in the business of this institution. This confidence is by all means our most valuable asset. It is accorded us because we at all times recognize that our first duty is to serve faithfully, and intelligently, the interests

of those who entrust to us their money or the conduct of their affairs.

Our officers are at all times ready to give you their best advice in all matters concerning your financial welfare—you are invited to visit the bank at an early date.

BURDETTE AT THE BAT.

XIV.

Heroism Without Witnesses. "Wungalius," asked the judge, looking with compassion upon the old colored man before him charged with the murder of domestic poultry. "Where are you?" The prisoner smiled, as one who smiles in ignorance of simplicity. "Law, bless you," he replied, "I don't ingenerally take no notice when I's gwine arah chickens."

There are times when witnesses are important, if not actual hindrances to high achievement. La Rochefoucauld says, in his maxim of domestic poultry, "where are you?"

The Majestic Theater will inaugurate its new policy today, beginning its series of Saturday shows, to which it has produced plays to her credit in that of the most popular plays of the season.

The first play will be Rida Johnson Young's "The Lottery Man," a farce of Plymouth Rock and "Dominicker" which was a year's success in New York, and which is said to be an exceptionally entertaining piece of writing.

but many a deed of reckless and spendthriftedness would be hampered, if not absolutely pre-

vented by the presence of the moving-picture medium. Young has achieved unusual success for a writer whose career only covers a period of four years. She has produced plays to her credit in that of the most popular plays of the season.

"The Boys of Company B," "Horrible Betty," "Ragged Robin" and "The Lottery Man." Of course, "Brown Harvard," "Glorious Betty" and "The Devil's Own" were distinct successes.

I have been writing for these four years, but don't you think I have been fortunate? Things have come my way, one after the other.

To begin with, I was with the firm of Winkler, for two or three years I

came into the reader's mind, quite naturally, illustration of this fact, the narrative of the Associated Press dispatches of the two young business men of San Fran-

çois Salomon and Louis Bartle. The names are indicative of marked business ability and shrewdness, are not especially sug-

gestive. It seemed to me I would get an engagement in Mr. Sothern's company at first. After that I was in Daniel Boone, Kit Carson, Adam Poe or

any of the famous b'ar fighters. Young was the

one on the play bills, and had all

parts of parts.

I never did anything

leading a customer who had per-

haps been a profitable buyer of white

goods, found themselves, odd as

far from the usual haunts of men,

ridges and forests of Dawsonville.

here," continues the narrative, "at all

the time when opportunities spot

with the limelight, of being cast in here."

SPORTING NEWS, LOCAL AND TELEGRAPHIC.

BAD ACTOR.

ERRORS CAUSE TWO DEFEATS.

Vernon Are Wrong at Right Time for Seals.

Bodie and Henley Land on Raleigh for Homers.

Fine Fielding Stunts Soften Rank Blunders.

San Francisco, 4; Vernon, 2. Morning game.

San Francisco, 6; Vernon, 4. Afternoon game.

There were several hard blows that almost killed father yesterday out at the ball grounds, but the toughest one was in the ninth inning of the afternoon game when Slats Henley who could have led the game when he was West's School for Young Ladies if it had been a girl, took a look at young Raleigh and walloped the first ball he pitched for a home run over the left field fence.

To the satisfaction that Slats is not a home run hitter there came the great grief of the little Vitt who was roosting on the fence. He had to leave the ball good-by and this is how two runs came to the Seals in two minutes and won them a game that they had not secured a license for.

In the afternoon game the afternoon game one might philosophize that the Seals were no more entitled to it than John Rockefellers is to all the money in the world, and they would not have had it had not Rappo stepped on his own feet in the fourth inning and bailed Mohler and then tried to throw a spit ball when the signs were not right.

Incidentally Jess Stoval endeavored to throw a mulligan at first base on his hit and Carlisle got him out with a wild hit to center off the ground while both he and the ball were traveling a mile a minute. There were various other things, but these were not that very much help.

Concerning the forenoon game it might be stated that Hog Hogan tried to pull off one of his own plays on the Seals and they slipped one over on him and paid the price. Hog had so much money that he bailed off to get to any team or set of men that would beat him to some of the old squeeze plays, double steals and various other little things that the Seals were not.

Hog had the last laugh in the eighth game when the signs were not right.

This something was the double steal from the third to the fourth and from second to second and they not only got away with it, but on the throw-back to the plate. Hog passed the ball sufficiently to allow the runner to get around home and later scored the winning run when the winning run when Nick Williams suddenly came to life and spanked the ball safely to left.

Both games were exciting all the way and the fans were excited in them to keep the fans swearing one minute and praying the next. Mohler was fined \$5 in the morning; Melchior celebrated his return to the game after being held out by a sprained knee and later scored the winning run when the winning run when Nick Williams suddenly came to life and spanked the ball safely to left.

REAL HARD LUCK.

What might be called the feature of the morning game was the astonishing fact that the Seals in the first inning made a double and a triple and a home run and yet could not score one run in the inning, with a double to center and after Shaw had popped to Roy Brashear, Tom scored on Melchior's triple to left, which might not have been triple if Rappo had not hit it. Then Bodie ran to grab the ball as it hit the ground. Such balls always go to the fence and this one did. Then Bodie was walked, but the two men were stuck on bases for both Toman and Bodie to get into the home plate clear. The score:

BLANK SENATORS TWICE.

ASSOCIATED PRESS NIGHT REPORT.

SAN FRANCISCO, Sept. 4.—Oakland rounded up the two runs of the percentage heap today with a vengeance, taking both games and holding Sacramento to without a run for the entire day.

At Freeman's Park in the morning in Oakland, the home guard hit Byram, the former Princeton pitcher, early and often, piling up five runs in simple fashion. The game was in his best form for the transbay platoon.

Arrelanes, pitching his first game since his return from Boston, was a simple problem for the heirs apparent in the afternoon after lunch. Christian ket the first and scored and the home plate clear. The score:

OMIA PUG IS REPORTED IN GOOD SHAPE.

MUCH INTERESTED IN BIG FOREIGNER.

DIRECT WIRE TO THE TIMES:

[PHILADELPHIA, Sept. 4.—[Exclusive Dispatch.] The first big "Queen's Guard" for heavyweights since Johnson put away Jim Jeffries is to take place at the Philadelphia ballpark here tomorrow afternoon. All Kaufman of California swap punches with Bill Lang at 3 p.m. The bout is scheduled to rounds.

The largest crowd that ever bout here will be on hand, for all men have a seating capacity of 22,000 persons. The ring will be in the diamond and the Cahill of illumination will make the fight as day.

There is little doubt but that the men to their best. Lang will have to a good showing against Kaufman if he hopes for any more matches America, while Kaufman, who as to meet Jack Johnson for the championship, will face a big obstacle to such a fight.

Aufman has been training at Alameda, Calif., under the direction of Delaney, who reports the young in prime shape. Kaufman is not quite fighter, although he has improved wonderfully in the few points of time.

It is something of a mystery, this his first bout in America. He bouts to both Johnson and Burns Australia, but won from all the there and also knocked out Fitzsimmons, who had the course only a of his former self.

In all, the fight of tomorrow night will be a hummer. A delegation of Yorkers will come over in a special and many other celebrities are invited. It is expected the big men into action about 10 o'clock. Billy Roop will be the referee.

THE OIL INDUSTRY.

TEN FIELDS REPRESENTED.

New Organization Is Formed at Bakersfield.

Committee Named to Outline Course of Action.

Los Angeles Association Is Not Referred to.

INT DIRECT WIRE TO THE TIMES:

BAKERSFIELD, Sept. 4.—[Exclusive Dispatch.] The meeting held today for the purpose of devising plans and taking action for the relief of the operators on public oil lands whose property is threatened by adverse decisions of the General Land Office, resulted in the formation of an entirely new organization under the name of the California Oil Men. The Western Oil Producers' Association, organized at Los Angeles for the same purpose, was not referred to.

Following general discussion, Charles P. Fox of the Oil World, who was elected chairman, was authorized to appoint a committee of three members from each of the ten oil fields of the State, and to this body was delegated the task not only of formulating plans for permanent organization, but the still more important duty of outlining a course of action and taking the first steps toward putting it into effect. Chairman Fox and Gen. R. L. Peeler, secretary of the meeting today, were made members of this committee, and Mr. Fox announced these appointments:

Coolings—S. A. Guberson, Jr., R. W. Dallas, George D. Roberts.

Hancock—W. N. McReynolds, L. R. Seeger, Matt Sullivan.

McKittrick—F. N. Scofield, H. B. Guthey, E. J. Miley.

Santa Maria—George L. Walker, P. O. Tieton, W. W. Orcutt.

Devil's Den—G. S. Johnson.

Kern River—O. C. Heck, J. M. Wright, W. D. Young.

Midway—E. M. Sheridan, S. A. Johnson, J. B. Hendrick.

Mr. Fox said he would announce the members from the Fullerton-Whittier and Salt Lake fields in a couple of days.

The meeting was attended by nearly 100 oil men, representing all parts of the State.

THE WAY TO RELIEF.

The recent decisions of the Land Office, and the history of the mining laws were briefly discussed by Attorney J. M. Johnson of San Francisco and N. A. Johnson of Colton. The former explained the legal decisions and the points involved, and Mr. Johnson reviewed the fact that mining laws have usually been the customs of the miners, recognized by the courts and afterward adopted by legislatures. He said that in the present case the miners' troubles are due to the reversal of all precedents in which mining customs, as they affect oil lands, have been recognized by the courts.

Congressman Smith, who was asked to address the meeting, said that the first step for the oil men was to hire a good lawyer to present their case before the Land Office, where he thought it could be adjusted. He said the Land Office and Interior Department officials are good lawyers and did not hesitate to work for the injured oil men. However, if relief is not to be had there, he believed Congress has plenty of precedents to justify its passing legislation to remedy the situation.

Others who took an active part in the discussion were W. P. Williams, Judge Day of Santa Barbara, I. E. Seeger, Gen. Peeler of Coolings, J. W. McCloud of Hanford and others. Seventy-seven men signed the membership roll.

BAKERSFIELD.

NEW SCHOOL IS SOON TO OPEN.

SISTERS OF MERCY WILL HAVE IT IN CHARGE.

Plans Drawn for Catholic Hospital to Cost Fifty Thousand Dollars. San Francisco Merchants Will Run Another Excursion to San Joaquin Valley Towns.

SPECIAL CORRESPONDENCE OF THE TIMES:

BAKERSFIELD, Sept. 4.—The Sisters of Mercy will open the St. Francis parochial school, the first Catholic school to be established in Bakersfield, the 12th inst. For the first six grades, the tuition will be free, and the textbooks and course of study will be the same as in the city schools.

The opening of the school is in line with the general activity of the Catholic church since Father G. G. Frund took charge about five years ago. Four years ago in February the new St. Francis Church, built at a cost of \$25,000, was begun. Two years ago the St. Clair Hospital, was opened by the Sisters of Mercy, and plans are being drawn for a new hospital to cost about \$20,000, and built on a full block at C and Sixteenth streets.

TO VISIT VALLEY.

The Merchants' Association of San Francisco is planning another excursion to San Joaquin Valley towns, starting from the bay city on October 17, and consuming a week. Half a day will be spent in each of the larger towns from Fresno to Bakersfield, the 12th inst. For the first six grades, the tuition will be free, and the textbooks and course of study will be the same as in the city schools.

The opening of the school is in line with the general activity of the Catholic church since Father G. G. Frund took charge about five years ago. Four years ago in February the new St. Francis Church, built at a cost of \$25,000, was begun. Two years ago the St. Clair Hospital, was opened by the Sisters of Mercy, and plans are being drawn for a new hospital to cost about \$20,000, and built on a full block at C and Sixteenth streets.

OFFICERS SEEK FUGITIVE.

William Dilzer, the ex chauffeur of the Honolulu Consolidated Oil Company, who escaped from Constable Shoney at Maricopa following his arraignment on a charge of deadly assault on Superintendent Pollard, is still at large. Pollard discharged Dilzer, who therupon attacked him with a knife, and severely wounded him. After an offer of \$200 for his capture, after weeks of search he was arrested in San Francisco and brought to Maricopa for arraignment.

He was not handcuffed, and taking advantage of the inattention of the Constable, he made his second getaway. Another reward has been offered, and the police are on the lookout for him, as are the special officers of the railroads, who are the lookout for the man. He was seen early yesterday morning, evidently attempting to board the Owl at East Bakersfield, but was chased, during which he was shot, and fled at him by officers, resulting fruitlessly.

Mrs. Sarah E. White, one of the oldest settlers of Delano, and mother of Mrs. Ben Thomas of that place, is dead. She crossed the plains in 1851.

I. L. Adelstein, director of institutions for the University of California, is holding a series of farmers' institutes in Kern county.

The contest filed by A. W. Thresher against C. E. Kitchen for the Republican nomination for justice of the peace in Kern county, resulted in a ballot count in favor of Thresher. The first count in court resulted in a tie, but a ballot cast for Kitchen and counted as spoiled by the election board was allowed by the court.

INCENDIARY FIRES.

Blaize at Porterville Results in Loss of Twenty-five Thousand Dollars.

Critus Activity.

SPECIAL CORRESPONDENCE OF THE TIMES:

PORTERVILLE, Sept. 4.—Investigation of the \$25,000 fire, which destroyed a row of business houses and machine shops on Olive street last night, has convinced the officers that the blaze was incendiary in origin. B. F. Colburn, the nightwatchman at the mill, reported to the investigators that efforts were made to set fire to a garage adjoining the mill. On one occasion, said Colburn, he found at the front door of the garage a burning pile of shavings and oil-saturated rags. The latter later became the remains of a small fire, which was burning in the rear of the mill. Sixty per cent insurance was carried by the owners of the destroyed places, and all five structures are to be rebuilt without delay.

Activity on Pacific Coast Row indicated that the orange season is to be a busy one. In preparation for the fall crop, changes and repairs to cost in the neighborhood of \$16,000 are being made in the eight houses.

St. Joaquin division of the Southern Pacific announces in the early spring a new passenger station is to be built by the company, just north of Olive street on the railroad reservation. It will be of Mission design, to cost about \$30,000.

Harry Mahaffey, proprietor of the St. Francis Hotel, last night at the Southern Pacific station in this city, spoke three times with a long blade of a folding pocket knife Louis Stone, a grocer.

Mahaffey was about to take the evening train for Los Angeles when Stone demanded he pay a grocery bill. Suddenly, drew out more than a foot.

The two were arrested on charges of disturbing the peace. At a hearing held last evening in Judge Lumley's court, Mahaffey was released on his own recognizance and his hearing on the more serious charge of an assault with a deadly weapon was put over until the 10th inst.

RANCHER ACCUSED.

Complaint was entered today to Special Officer Eardley of the Tulare County Humane Society against Serop Garagian, who is charged with brutal treatment of a horse. Garagian owns a ranch near Visalia.

It is alleged by those who made the complaint that yesterday he became enraged at a balky horse and taking a long-bladed hunting knife, slashed the animal with it.

Garagian, at the lower end of the cactus that reaches up to Tombstone, was flooded, while a number of culverts and short bridges on the main line of the Southwestern were carried away.

For a long time the Southwestern has been contemplating changes in its track down the San Pedro Valley, near Fairbank, and an engineering crew is now busy preparing the ground through the rugged mountains.

After completing an entire change of the route first adopted between Naco and Benson by the Phelps-Dodge Company when it built the old Arizona Southwestern Railroad.

ARIZONA BREVIETES.

Local patriotic spirit has been aroused here a report that the War Department is contemplating the placing of a brigade post somewhere in Southern Arizona, involving the abandonment of Fort Apache and Fort Huachuca.

General Kit Carson of the Chamber of Commerce has appointed a citizens' Committee to look deeply into the matter and the committee, headed by L. H. Mann, is already at work.

Douglas also is working on the same proposition and has on file in Washington its application and maps showing the proposed location.

Competition is keen over the location of the new Federal building, for which appropriation for a location already has been made.

Forest officers of the Sequoia reserve

state that the recent fire burned over 200 acres of timber land and the loss will reach \$100,000. Superintendent Fronteria has appealed to Washington to have the ranger force doubled. He contends that the Sequoia, which is one of the largest reserves in the United States, has less protection to the square mile than any other reserve in California.

MORE SPACE NEEDED.

Children Packed Like Sardines in Small Room While Waiting to Be Vaccinated.

Pushed squeezed and almost ready to drop with fatigue, more than 200 children, most of them accompanied by their mothers, stood in line at the Health Office Saturday afternoon from 1 to 5 o'clock, waiting their turn to be vaccinated.

It was the opening day of the vaccination department; the children lining up long before the hours set. They were crowded along the narrow stairway and packed into a small room on the second floor like sardines in a box. Back into the yard the line stretched.

As soon as the vaccinating commenced there were more trouble. Those wishing to leave had to squeeze through the crowd, and when a child was taken up by the waiting line, confusion reigned the entire afternoon. It was impossible to handle the crowd in such small quarters. At least four children fainted. One health officer said that they cannot do anything to improve the situation unless there have larger quarters to take care of the people.

"Every year it has been the same," declared Dr. L. M. Powers, head of the health department. "We have asked again and again for larger quarters, but nothing has been done. This city is growing larger and larger every year, and we need more room. If we had a larger place, I could get through with it."

It is the opinion of the health officer that the city cannot do anything to improve the situation unless there have larger quarters to take care of the people.

In the company's mines at Silver Bell only thirty-five workmen are left behind, hundreds of their fellows having left for the gold fields of the Southwest. The doors and windows have been boarded up, and in many of the homes the furniture has been left for the lack of a market for it.

In the shut-down was included the Imperial Copper Company, which has been operating at the San Jose Creek River. The School Trustees have resigned.

There will be no succession, there will be no replacement.

The company's mines at Silver Bell

are the most productive in the Southwest. The doors and windows have been boarded up, and in many of the homes the furniture has been left for the lack of a market for it.

In the shut-down was included the Imperial Copper Company, which has been operating at the San Jose Creek River.

The mines are as good as ever, but just now, when copper is low in price, the rapid decline in production makes it difficult to sell.

When census enumerators made

ARIZONA IS STORM SWEEPED.

Lightning Kills Cowboy and His Horse.

Tucson Minister's House Is Mark for Fury.

Willcox Flooded—Railroad Is Washed Out.

SPECIAL CORRESPONDENCE OF THE TIMES:

TUCSON (Ariz.) Sept. 1.—Last week the community, eighteen miles south of San Carlos, was visited by a lightning bolt which destroyed a cowboy employed by J. N. Porter, was found dead where he and his saddle horse had been killed by a lightning stroke. An odd circumstance is that, about a year ago, Jackson's brother, aged 17, was killed almost in the same spot, within Hawk Cañon, by the falling upon him of a wild horse he was trying to tame.

During the last thunderstorm in preparation for the race meet, a lightning bolt struck the house of R. O. E. Compton, No. 27 North Second avenue, tearing a hole five feet square in the roof and, passing down electric lighting wires, tearing up the interior of the parsonage kitchen. A stove was overturned, a clock knocked through a window and much minor damage was done.

A terrible lightning storm came at the close of the race meet, when the town was flooded, water rising in the streets and the water rapidly rising, through the inability of the railroad culverts to handle the flood. The long railroad embankment broke, but the town had been saved, as the water had been four feet deep.

The lightning bolt, which reached the home of R. O. E. Compton, was followed by a heavy fall of rain. Just before midnight a series of warning pistol shots and calls from the horses, who were running wild, were heard. The streets were flooded, and the water rapidly rising, through the inability of the railroad culverts to handle the flood. The long railroad embankment broke, but the town had been saved, as the water had been four feet deep.

NAKED MANIAC OVERPOWERED.

ICE MAN DEMENTED WHILE AT HOT SPRINGS.

San Diego Citizen Ramps Without Clothes Through Cactus and Underbrush and Puts Up Vigorous Fight Before Friends Get Him to the County Hospital.

BY DIRECT WIRE TO THE TIMES.

SAN DIEGO, Sept. 4—(Exclusive Dispatch) Charles Anderson, an ice man, left the bath-house at Tia Juana Hot Springs, Friday morning, leaving behind all his clothing. San Diego friends today, after a search, found him stark naked, hiding in the bushes three miles from the springs. His body was bruised and bleeding from contact with cactus thorns and the rough underbrush. He was a raving maniac and it was with difficulty that he was overpowered, clothed and brought to this city. He was taken to the County Hospital, where it is thought he will recover. Friends are unable to account for his sudden mental derangement. He had secured a vacation and had gone to the springs to take baths.

A LONELY TRIP.

by Use of Screen.

Working absolutely secure from observation, and with plenty of time at their command, burglars cut through the ceiling of the Cawston Ostrich Farm salesrooms, at No. 312 South Broadway, Saturday night, let themselves down through the hole, selected about \$1000 worth of the finest plumes, boas and fans, packed them in suit cases and escaped with their booty.

Officers believe the plunder has already been shipped off the city by express to some distant point, where it can easily be sold.

The price of the goods taken is estimated at \$1000.
